## Introduction to GSP (issuer)

The issuer, GSP Renewable Energy Pte. Ltd., a Singapore company, is a distributed energy development, investment and operation platform invested by GLP in 2018. GSP covers a variety of distributed energy businesses, such as photovoltaics, wind power and energy storage. Commit to become China's leading distributed green energy service provider.

## Renewable Energy

Founded in 2018 by GLP, GSP mainly focuses on the development of distributed rooftop PV systems. The clean and green energy offered by GSP has become an essential part of the infrastructures for the new-generation smart logistics parks, industrial parks and data centers created by GLP, providing new impetus to the zero-carbon operation.

Nowadays, GSP has invested and developed more than 100 distributed PV projects for logistics parks and helped them to realize the carbon neutrality at least on the operation level. Meanwhile, GSP is making efforts to satisfy the increasing demand for green power in various industries from the perspective of customers' business scenarios and needs to contribute to carbon peaking and carbon neutrality goals.

The Company does not intend, and do not assume any obligation to update or correct the Information.

This report contains statements that constitute forward-looking statements which involve risks and uncertainties. These statements include descriptions regarding the intent, belief or current expectations of the Company with respect to the consolidated results of operations and financial condition, and future events and plans, of the Company. These statements can be recognised by the use of words such as “believes”, “expects”, “anticipates”, “intends”, “plans”, “foresees”, “will”, “estimates”, “projects”, or words of similar meaning. Similarly, statements that describe the Company’s objectives, plans or goals also are forward-looking statements. All such forward-looking statements do not guarantee future performance and actual results may differ materially from those in the forward-looking statements as a result of various factors and assumptions. You are cautioned not to place undue reliance on these forward-looking statements, which are based on the current view of the management of the Company on future events. The Company does not undertake to revise forward-looking statements to reflect future events or circumstances. No assurance can be given that future events will occur, that projections will be achieved, or that the Company’s assumptions are correct. The Information, including but not limited to any estimates or other forward-looking statements, may be subject to changes without notice.

Some statements, pictures and analysis in this presentation are for demonstration and illustrative purposes only. Any hypothetical illustrations, forecasts and estimates contained in this presentation are forward-looking statements and are based on assumptions. Hypothetical illustrations are necessarily speculative in nature and it can be expected that some or all of the assumptions underlying the hypothetical illustrations will not materialise or will vary significantly from actual results. No representation is made that any returns indicated will be achieved. Accordingly, the hypothetical illustrations are only an estimate and the Company assumes no duty to revise any forward-looking statement. This report may also contain historical market data; however, historical market trends are not reliable indicators of future market behaviour.

Some statements and analysis in this report and some examples provided are based upon or derived from the hypothetical performance of models developed by the Company. In particular, in connection with certain investments for which no external pricing information is available, the Company will rely on internal pricing models, using certain modelling and data assumptions. Such valuations may vary from valuations performed by other parties for similar types of securities. Models are inherently imperfect and there is no assurance that any returns or other figures indicated in this presentation and derived from such models will be achieved. The Company expressly disclaims any responsibility for (i) the accuracy of the models or estimates used in deriving the analyses, (ii) any errors or omissions in computing or disseminating the analyses or (iii) any uses to which the analyses are put.

None of the Company, its subsidiaries or any of their respective members, directors, officers, employees or affiliates nor any other person accepts any liability (in negligence, or otherwise) whatsoever for any loss howsoever arising (including, without limitation for any claim, proceedings, action, suits, losses, expenses, damages or costs) from any use of this report or its contents or otherwise arising in connection therewith.

By accepting and/or viewing the Information, you agree to be bound by the foregoing limitations.
